

INSTALLATION INSTRUCTIONS

type: **ATIK, AFRA, AKIE, STYX**

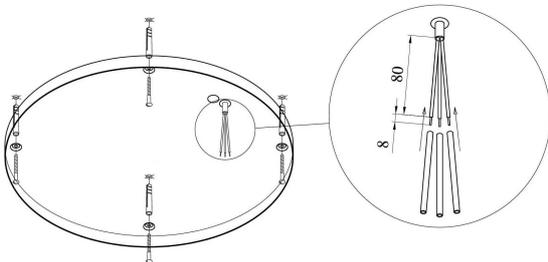

The luminaire can be used as ceiling and wall (**STYX 4 only as a ceiling**).
Only Fixtures IN-12BD1 / xxx have double insulated.

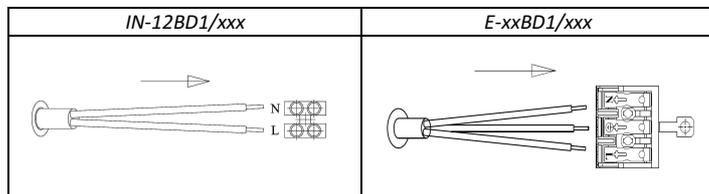

1. by angular rotation counter-clockwise loosen the shade from the fixture

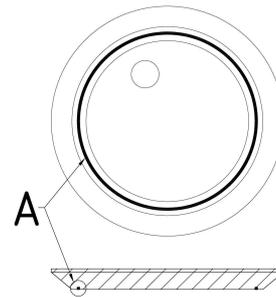

2. check if the electrical supply is switched off
 3. extend the input cable through opening in the fixture and fix it to the wall/ceiling by using screws and rubber pads

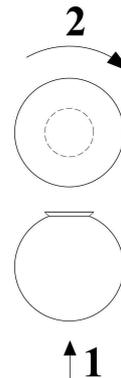

4. supply the input conductors with silicon sleeves
 5. connect the input conductors

6. install the light source
 7. check, that the silicone ring is right placed in groove fixtures (A)

8. put the shade on and by angular rotate clockwise and tighten

Electrical installation and safety:

Generally it is necessary to follow the EU regulations. At any revision or service activity it is necessary to disconnect lighting fitting from the electrical network. Only qualified and experienced person can do this work.
