

# TRACE CEILING SURFACE

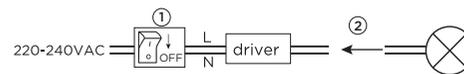

INSTALLATION INSTRUCTIONS | MARCH 2023

Mounting base:

Driver must be powered off before connecting cables.

Before connecting the luminaire/LED module to the driver please make sure the driver is not powered but disconnected from the mains. The driver can only be powered when the luminaire/LED module is already connected. Disregarding this instruction might damage or even destroy the luminaire/LED module.

## DIMENSIONS

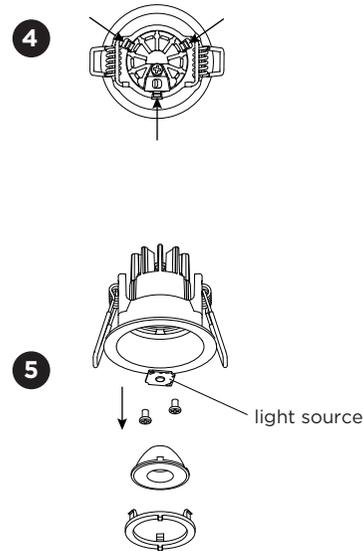

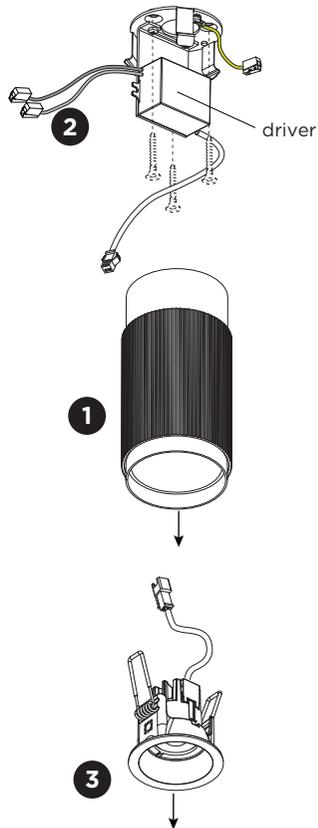

## MOUNTING INSTRUCTION

- 1 Fix the mounting base to the ceiling with screws (screws are not included).
- 2 Push the springs upwards and insert the luminaire into the Trace tube until it touches the step.
- 3 **POWER CONNECTION**  
Connect to 220-240V. Connect to the driver.
- 4 Attach the tube to the mounting base by pushing it completely against the ceiling.

# TRACE CEILING SURFACE

INSTALLATION INSTRUCTIONS | MARCH 2023

## DISMOUNTING AND RECYCLING INSTRUCTIONS Light source & driver

- 1 Pull down the luminaire from the ceiling base.
- 2 Unscrew and unplug the driver to remove it.
- 3 Remove the fixture from the tube.
- 4 Push at the three points to loosen the front ring.
- 5 Take the components out to remove the light source.

The light source is replaceable by an authorized professional.  
For advice contact your Wever & Ducré customer service contact point.

The driver can be replaced by the end user.

This luminaire contains a light source with the energy class E.
