

LINOO RECESSED TRIMLESS

INSTALLATION INSTRUCTIONS | FEBRUARY 2026

DIMENSIONS

MOUNTING INSTRUCTION

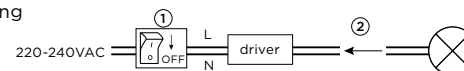

- 1** Make a hole in the ceiling according to the prescribed dimensions.
- 2 POWER CONNECTION**
Always use a driver according to the specifications of the LED module.
Single connection
220-240V

Multiple connection
220-240V
- 3** Insert the plasterkit in the hole.
- 4** Tighten the screws to clamp the plasterkit into the ceiling.
- 5** Plaster and paint the surface.
- 6** Change the colour temperature with the switch on the backside. The power must be switched off before changing the colour temperature.
- 7** Connect the wires and click the luminaire into the plasterkit. Get sure to align the ball plungers in the plasterkit.

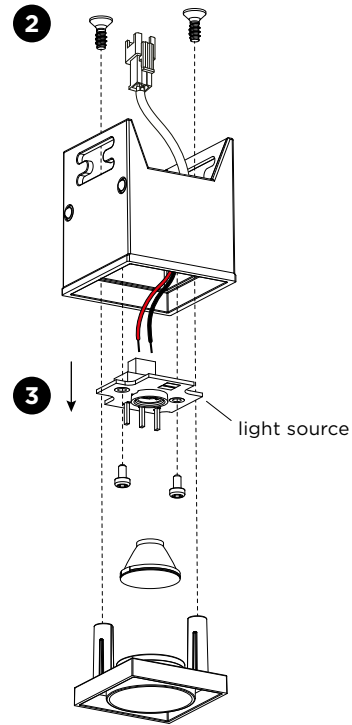

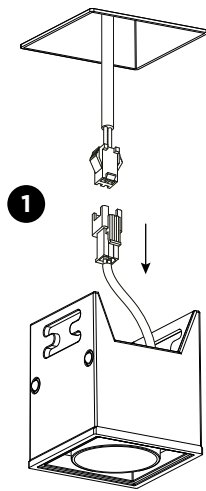

Driver must be powered off before connecting the cables.

Before connecting the luminaire/LED module to the driver please make sure the driver is not powered but disconnected from the mains. The driver can only be powered when the luminaire/LED module is already connected. Disregarding this instruction might damage or even destroy the luminaire/LED module.
